In the event, however, of such ned tactics, it is probable the Sardinians will be everything to the paramount necessity of their army. They would, no doubt, fall back dria, and from this base await the assistof the French troops, who are being rapidly ted to Genoa. We may presume that by one some 40,000 Sardinians are concentrated at udria, and that the rest of the army are reing before the Austrians, endeavouring as as possible to avoid a collision. The question est importance, however, is the movement of sencii armies ; and here we must pay a tribute nation which was so lately our ally. But there is, on the other hand, a more, the picture. The French have the command set. It may be said with confidence that if sould only reach Italy across the Alps, the as it emerged from the passes. But the mid harbor of Genoa, almost impregnable, are hands of the Sardinians; we may say, indeed, hands of the French. French troops are archily, and in a few days these will constitute my which, in conjunction with the Sardinians ndris, will be too formidable to be left in aref an invading force. HONGKONG, April 18, 1859. DRAM San :- The clipper ship Sea Serpent, Capt tmore, arrived yesterday, and brought us full es of your valuable paper. It has been several onths since we have heard from the Islands, and we were all glad to hear from you. Business here continues to be unusually depressed; everything is at a dead stand. With the exception of a few ships now on the berth for California, there is nothing doing. At present we have very few ships in port, most of them having left here in ballast, and many of them for home direct in ballast. Should the dry weather which we now have continue a few days more, the rice crop will be seriously damaged, which will again give employment to ships to bring rice from the south. Calcutta, Penang, Singapore, and even Bankok, are full of ships, with nothing to do.

The U. S. S. frigate Powha tan has gone to Singapore to bring up the American Minister, and one of H. B. M.'s frigates was gone down for Mr. Bruce, the English Ambassador. They are both expected here in a few days. A large force is now ready to go with them to Pekin.

The U. S. S. Mississippi and sloop-of-war Germantown are at Japan, and it is probable the Mississippi will be in your port before you receive this, on her way to Panama, with the Japanese Ambassador. The First Lieutenant of the Germantown is here very sick, and is not expected to live from day to day. His complaint is abscess of the liver, which of which burst into the cavity of the chest.

No whaleships have touched here this season, which is something very unusual. We have heard of several at Nangasaki, in Japan; but the report was not reliable and very indefinite. For the principal intelligence I must refer you to the papers which

To the Owners, and Persons interested in Whaleships in the Pacific Ocean.

OFFICE OF THE PANAMA RAIL-ROAD COMPANY,
NEW YORK, July 20, 1867.

The Panama Rail-Road Company takes this method of informing those interested in the Whaling business, of the advantages offered by the Railroad across the Isthmus of Panama, for the shipment of Oil from the Pacific to the United States, and for sending outfits and supplies from the United States to Panama.

The Railroad has been in regular and successful operation for more than two years, and its capacity for the transportation of The Railroad has been in regular and successful operation for more than two years, and its capacity for the transportation of every description of merchandise, including Oil, Provisions, &c., has been fully tested. The attention of several Captains of whaleships has recently been turned to the subject of saipping their oil from Panama to New York during the present season, and the Panama Rail-Road Company has made arrangements to afford every facility which may be required for the accomplishment of this important object. A Pier, 450 feet long, has been built in the bay of Panama, to the end of which Freight Cars are run to receive cargoes from lighters or vessels lying alongside, and deliver the same alongside of vessels at Aspinwall. Vessels of from 200 to 300 tons can lie at the Pier with safety, grounding in the mud at low water.

The vessels to and from Aspinwall are fast-sailing brigs, belonging to the Rail-Road Company, and the Company is propared to receive oil at Panama and deliver it in New York, under through Bills of Lading at the rate of seven

pared to receive oil at Panama and deliver it in New York, under through Bills of Lading at the rate of seven cents per gallon, if received at the Pier, and eight cents per gallon if received in the harbor from ship's tackies, charging for the capacity of the casks, without allowing for wantage. For whalebone, one and one-half cents per pound. This charge covers every expense from Panama to New York, in case the oil is sent through the Superintendent of Commercial Agent of the Panama Rail-Road Company, insurance excepted. The freights may be made payable on the Isthmus or in New York at the oution of the shipper.

freights may be made payable on the Isthmus or in New York at the option of the shipper.

The vessels of the Company sail regularly semi-monthly, and the average passages to and from Aspinwall are about twenty to twenty-five days. The time occupied in crossing the Ishmus is four hours. Oil, during its transit across the Ishmus, will be covered with canvas, or conveyed in covered cars, and owners may be assured that every care will be taken to prevent leakage. Several cargoes have already been conveyed to New York with out the slightest loss.

Oil or other goods consigned for transportation to the Superout the slightest loss.

Oil or other goods consigned for transportation to the Superintendent of the Panama Rail-Road Company, or to William
Nelson, Commercial Agent of the Company at Panama, will
be received and forwarded with the greatest despatch.
